## TABLE OF CONTENTS

1. William Blake: <i>Songs of Innocence and of Experience</i> .....	1
2. Robert Browning: “Porphyria’s Lover”.....	4
3. Lewis Carroll: “The Mouse’s Tale”.....	6
4. William Shakespeare: “Sonnet 17”.....	10
5. Algernon Charles Swinburne: “Sestina”.....	14

## 1. William Blake: *Songs of Innocence and of Experience*

This example features a fragment of William Blake's *Songs of innocence and of experience*, encoded and made available by the University of Virginia Library, for their Text Collection.

It forms a good example of how an anthology can be encoded. The work is considered as a single text (`<text>`) whose `<body>` contains both books. Both "Songs of Innocence" and "Songs of Experience" are encoded as `<div1>` numbered text divisions, with a `@type` attribute with value "book". Inside these books, all 45 poems are encoded as `<div2 type="poem">`. All poems have a title (`<head>`) and are subdivided into stanzas (`<lg type="stanza">`) and lines (`<l>`). Page breaks are recorded with `<pb>` elements, whose `@n` attribute contain the page number.

```
<text xmlns="http://www.tei-c.org/ns/1.0" xml:id="d1">
  <body xml:id="d2">
    <div1 type="book" xml:id="d3">
      <head>Songs of Innocence</head>
      <pb n="4"/>
      <div2 type="poem" xml:id="d4">
        <head>Introduction</head>
        <lg type="stanza">
          <l>Piping down the valleys wild, </l>
          <l>Piping songs of pleasant glee, </l>
          <l>On a cloud I saw a child, </l>
          <l>And he laughing said to me: </l>
        </lg>
        <lg type="stanza">
          <l>"Pipe a song about a Lamb!" </l>
          <l>So I piped with merry chear. </l>
          <l>"Piper, pipe that song again;" </l>
          <l>So I piped, he wept to hear. </l>
        </lg>
        <lg type="stanza">
          <l>"Drop thy pipe, thy happy pipe; </l>
          <l>Sing thy songs of happy chear:" </l>
          <l>So I sung the same again, </l>
          <l>While he wept with joy to hear. </l>
        </lg>
      </div2>
    </div1>
  </body>
</text>

<div2 type="poem" xml:id="d5">
  <head>The Shepherd</head>
  <lg type="stanza">
    <l>How sweet is the Shepherd's sweet lot! </l>
    <l>From the morn to the evening he strays; </l>
    <l>He shall follow his sheep all the day, </l>
    <l>And his tongue shall be filled with praise. </l>
  </lg>
  <lg type="stanza">
    <l>For he hears the lamb's innocent call, </l>
    <l>And he hears the ewe's tender reply; </l>
    <l>He is watchful while they are in peace, </l>
    <l>For they know when their Shepherd is nigh. </l>
  </lg>
</div2>
<pb n="6"/>
<div2 type="poem" xml:id="d6">
  <head>The Ecchoing Green</head>
  <lg type="stanza">
    <l>The Sun does arise, </l>
    <l>And make happy the skies; </l>
    <l>The merry bells ring </l>
    <l>To welcome the Spring; </l>
    <l>The sky-lark and thrush, </l>
```

```

<l>The birds of the bush, </l>
<l>Sing louder around </l>
<l>To the bells' chearful sound, </l>
<l>While our sports shall be seen </l>
<l>On the Ecchoing Green. </l>
</lg>
<lg type="stanza">
  <l>Old John, with white hair, </l>
  <l>Does laugh away care, </l>
  <l>Sitting under the oak, </l>
  <l>Among the old folk. <pb n="7"/></l>
  <l>They laugh at our play, </l>
  <l>And soon they all say: </l>
  <l>"Such, such were the joys </l>
  <l>When we all, girls & boys, </l>
  <l>In our youth time were seen </l>
  <l>On the Ecchoing Green." </l>
</lg>
<lg type="stanza">
  <l>Till the little ones, weary, </l>
  <l>No more can be merry; </l>
  <l>The sun does descend, </l>
  <l>And our sports have an end. </l>
  <l>Round the laps of their mothers </l>
  <l>Many sisters and brothers, </l>
  <l>Like birds in their nest, </l>
  <l>Are ready for rest, </l>
  <l>And sport no more seen </l>
  <l>On the darkening Green. </l>
</lg>
</div2>
<pb n="8"/>
<div2 type="poem" xml:id="d7">
  <head>The Lamb</head>
  <lg type="stanza">
    <l rend="indent">Little lamb, who made thee? </l>
    <l rend="indent">Dost thou know who made thee? </l>
    <l>Gave thee life & bid thee feed, </l>

```

```

<l>By the stream & o'er the mead; </l>
<l>Gave thee clothing of delight, </l>
<l>Softest clothing, wooly, bright; </l>
<l>Gave thee such a tender voice, </l>
<l>Making all the vales rejoice? </l>
<l rend="indent">Little Lamb, who made thee? </l>
<l rend="indent">Dost thou know who made thee? </l>
</lg>
<lg type="stanza">
  <l rend="indent">Little Lamb, I'll tell thee, </l>
  <l rend="indent">Little Lamb, I'll tell thee: </l>
  <l>He is called by thy name, </l>
  <l>For he calls himself a Lamb. </l>
  <l>He is meek & he is mild; </l>
  <l>He became a little child. </l>
  <l>I a child & thou a lamb. </l>
  <l>We are called by his name. </l>
  <l rend="indent">Little Lamb, God bless thee! </l>
  <l rend="indent">Little Lamb, God bless thee! </l>
</lg>
</div2>

</div1>
</body>
</text>

```

Example 1. Adapted from a TEI P4 encoding of William Blake's anthology *Songs of Innocence and of Experience* (Blake 1789). TEI XML source available from [https://xtf.lib.virginia.edu/xtf/view?docId=modern\\_english/uvaGenText/tei/BlaSong.xml;raw=1](https://xtf.lib.virginia.edu/xtf/view?docId=modern_english/uvaGenText/tei/BlaSong.xml;raw=1).

## 2. Robert Browning: "Porphyria's Lover"

The following example is the poem "Porphyria's Lover" by Robert Browning. Although no formal line groups are discerned, it has a systematic rhyme scheme repeating every 5 lines. This is indicated in the `@rhyme` attribute of the outermost `<lg>` element. Some of the lines break up syntactic sentences; those have been marked with the value "yes" for an `@enjamb` attribute.

```

<lg xmlns="http://www.tei-c.org/ns/1.0" rhyme="ababb">
  <l>THE rain set early in to-night,</l>
  <l>The sullen wind was soon awake,</l>
  <l>It tore the elm-tops down for spite,</l>
  <l>And did its worst to vex the lake:</l>
  <l>I listen'd with heart fit to break.</l>
  <l>When glided in Porphyria; straight</l>
  <l>She shut the cold out and the storm,</l>
  <l enjamb="yes">And kneel'd and made the cheerless grate</l>
  <l>Blaze up, and all the cottage warm;</l>
  <l enjamb="yes">Which done, she rose, and from her form</l>
  <l>Withdrew the dripping cloak and shawl,</l>
  <l enjamb="yes">And laid her soil'd gloves by, untied</l>
  <l>Her hat and let the damp hair fall,</l>
  <l>And, last, she sat down by my side</l>
  <l>And call'd me. When no voice replied,</l>
  <l>She put my arm about her waist,</l>
  <l>And made her smooth white shoulder bare,</l>
  <l>And all her yellow hair displaced,</l>
  <l>And, stooping, made my cheek lie there,</l>
  <l>And spread, o'er all, her yellow hair,</l>
  <l enjamb="yes">Murmuring how she loved me—she</l>
  <l>Too weak, for all her heart's endeavour,</l>
  <l>To set its struggling passion free</l>
  <l>From pride, and vainer ties dissever,</l>
  <l>And give herself to me for ever.</l>
  <l>But passion sometimes would prevail,</l>
  <l>Nor could to-night's gay feast restrain</l>
  <l>A sudden thought of one so pale</l>
  <l>For love of her, and all in vain:</l>
  <l>So, she was come through wind and rain.</l>
  <l>Be sure I look'd up at her eyes</l>
  <l>Happy and proud; at last I knew</l>
  <l enjamb="yes">Porphyria worshipp'd me; surprise</l>
  <l>Made my heart swell, and still it grew</l>
  <l>While I debated what to do.</l>
  <l>That moment she was mine, mine, fair,</l>
  <l>Perfectly pure and good: I found</l>

```

```

<l enjamb="yes">A thing to do, and all her hair</l>
<l>In one long yellow string I wound</l>
<l>Three times her little throat around,</l>
<l>And strangled her. No pain felt she;</l>
<l>I am quite sure she felt no pain.</l>
<l>As a shut bud that holds a bee,</l>
<l enjamb="yes">I warily oped her lids: again</l>
<l>Laugh'd the blue eyes without a stain.</l>
<l>And I untighten'd next the tress</l>
<l enjamb="yes">About her neck; her cheek once more</l>
<l>Blush'd bright beneath my burning kiss:</l>
<l>I propp'd her head up as before,</l>
<l>Only, this time my shoulder bore</l>
<l>Her head, which droops upon it still:</l>
<l>The smiling rosy little head,</l>
<l>So glad it has its utmost will,</l>
<l>That all it scorn'd at once is fled,</l>
<l>And I, its love, am gain'd instead!</l>
<l enjamb="yes">Porphyria's love: she guess'd not how</l>
<l>Her darling one wish would be heard.</l>
<l>And thus we sit together now,</l>
<l>And all night long we have not stirr'd,</l>
<l>And yet God has not said a word!</l>
</lg>

```

Example 2. TBE-crafted example encoding of Robert Browning's poem  
 "Porphyria's Lover," as it appeared in *Dramatic Lyrics* (Browning 1842).

### 3. Lewis Carroll: "The Mouse's Tale"

The following example is an excerpt from Lewis Carroll's "The Mouse's Tale," a poem appearing in the third chapter of *Alice in Wonderland*. It is a concrete poem in which the lines consist of only a couple of words, laid out in such a way that they visualise the mouse's winding tail:

“Fury said to  
a mouse, That  
he met  
in the  
house,  
‘Let us  
both go  
to law :  
*I* will  
prosecute  
*you*.—  
Come, I’ll  
take no  
denial ;  
We must  
have a  
trial :  
For  
really  
this  
morning  
I’ve  
nothing  
to do.’  
Said the  
mouse to  
the cur,  
‘Such a  
trial,  
dear sir,  
With no  
jury or  
judge,  
would be  
wasting  
our breath.’  
‘I’ll be  
judge,  
I’ll be  
jury,’  
Said  
cunning  
old Fury ;  
‘I’ll try  
the whole  
cause,  
and  
condemn  
you  
to  
death.’”

Figure 1. A facsimile of “The Mouse’s Tale.”

For the encoder, this specific visual layout challenges the TEI's orientation to logical structures. In the example, the visual lines are encoded as logical lines (<l>); the visual particularities (font size, indentation) are formalised as values of a @rend attribute on each line. Of course, any value system is allowed for the @rend attribute; it's up to the processing layer to decide how to interpret these values and format them on the screen / in print.

## REFERENCE

Since version 2.0, the TEI Guidelines have added a <sourceDoc> element, that allows for a topographic transcription of the content of primary manuscripts, organised in visual units <surface>, <zone>, and <line>. See chapter [11. Representation of Primary Sources](#) of the TEI Guidelines.

Alternatively, the lines could have been treated on a more logical level, spanning multiple physical lines. The line breaks then could have been encoded with <lb> elements, and specific visual characteristics as values for @rend attributes on <seg> elements. Since the white space is quite significant, the special-purpose TEI element <space> could have been used as well.

<l rend="font-size(60%) indent(60px)">you</l>
<l rend="font-size(60%) indent(68px)">to</l>
<l rend="font-size(60%) indent(82px)">death.' "</l>
</lg>

```

Example 3. TBE-crafted example encoding of Lewis Carroll's poem "The Mouse's Tale" as it appeared in *Alice in Wonderland* (Carroll 1865). This encoding was based on the HTML encoding of this poem available at <https://bootless.net/mouse.html>.

## 4. William Shakespeare: "Sonnet 17"

The following example illustrates a very elaborate text encoding of a sonnet by William Shakespeare. As most sonnets, this poem is structurally analysed in three quatrains and one couplet. The lines themselves are further divided in metrical feet (<seg type="foot">) whose metrical analysis is provided in the @met of their containing <lg> element. For feet that metrically diverge from the metrical system, the actual metrical realisation is given in a <real> attribute. Where a foot runs over several syntactic phrases, the boundary between these phrases is marked with a <caesura> element. The rhyme scheme is encoded in the @rhyme attribute at the stanza level. In the example, the relevant <teiHeader> fragment is included for clarity's sake.

```
<TEI xmlns="http://www.tei-c.org/ns/1.0">
  <teiHeader>
    <encodingDesc>
      <!--.....-->
      <metDecl pattern="((+|-)+\|?/?)*">
        <metSym value="trochee" terminal="false">+-</metSym>

## 5. Algernon Charles Swinburne: "Sestina"

This example features a so-called "sestina," a highly structured verse form consisting of 6 six-line stanzas followed by 1 three-line stanza. While the same set of six words conclude the lines of each stanza, in each stanza they occur in a different order. Since Swinburne in this example adheres to a strictly alternating rhyming scheme (if the internal rhyme of the tercet is not taken into account), the line ending patterns in this example vary from the traditional structural pattern for a sestina.

In this example, the rhyming scheme is indicated per stanza, using the [@rhyme](#) attribute on the stanza's [<lg>](#) element. Rhyming words are marked with [<rhyme>](#) elements, with a [@label](#) attribute indicating their place in the rhyming scheme. In order to trace the line ending scheme, the ending words of the first stanza have been identified with an [@xml:id](#) attribute. Since they were already marked with a [<rhyme>](#) element, identification happens on this level. In the other stanzas, each line ending word is connected to its counterpart of the first stanza with a [@corresp](#) attribute. This is one of the global linking attributes, whose value formalises a correspondence relationship with another identified element (see the TEI Guidelines section [16.4 Correspondence and Alignment](#)). Since the reference is to a local element (an identified element in the same document), its value takes the form of a shorthand local pointer by simply preceding the target's [@xml:id](#) value

with a hash sign #. Here too, the `<rhyme>` element provides a sufficient peg for pointing out this correspondence. Otherwise, if no other element would have been available, a `<seg>` element could be introduced for identifying or referring to a span of text.

```
<lg xmlns="http://www.tei-c.org/ns/1.0" type="sestina">
  <lg type="sestet" rhyme="ababab">
    <l>I saw my soul at rest upon a <rhyme label="a" xml:id="A">day</rhyme></l>
    <l>As a bird sleeping in the nest of <rhyme label="b" xml:id="B">night</rhyme>,</l>
    <l>Among soft leaves that give the
      starlight <rhyme label="a" xml:id="C">way</rhyme></l>
    <l>To touch its wings but not its eyes
      with <rhyme label="b" xml:id="D">light</rhyme>;</l>
    <l>So that it knew as one in visions <rhyme label="a" xml:id="E">may</rhyme>,</l>
    <l>And knew not as men waking, of <rhyme label="b" xml:id="F">delight</rhyme>.</l>
  </lg>
  <lg type="sestet" rhyme="ababab">
    <l>This was the measure of my soul
